

Key Features

Strong encryption and security

Consistent protection spans enterprise desktops and servers.

Transparent encryption covers all data: user files, swap files, system files, hidden files and more.

Built with PGP Hybrid Cryptographic Optimizer (HCO) technology. FIPS 140-2 validated, CAPS-approved, DIPCOG-approved, CC EAL 4+ certification.

Simplified management

Steelgate has a single, Web-based management console that gives you automatic, centralized policy enforcement.

Easy passphrase and machine recovery provide local self-recovery, one-time-use tokens and other recovery options.

Support for Windows single sign-on means fewer passwords to remember.
